P[A_R[S_]T_]	Hannah		Tho.	MUNNINGS		1660	The very last entry in the old register. It starts off saying "Memorandum: That Tho. Munnings and Hannah..." but the rest is nearly impossible to read. Not entirely clear it's a marriage but it seems possible it is with the way the names are set down. Could be a note that banns had been read. Wivenhoe is mentioned although why isn't clear - one or both of their abodes? No date legible - possibly took place in 1660 given its position in the register but this isn't certain.	42
