Surname	Forenames	Father	Mother	Baptism date	Notes	Img
*SCO[W_]	John	John	Mary	16 Feb 1731/2	Very hard to read. It looks as if two parents are given, with different surnames, but they are incredibly hard to read. Or it might be that the father has a middle name, so the "mother's surname" is in fact the family name. But there are no other entries at this period where a father has a middle name. The father's surname might be Blois but it's just too hard to tell. If this register is rescanned so that it is larger, these surnames would be easier to decipher.	10
?	?	?	?	1717	Far too small to read. Not clear if it's a baptism that's been squeezed in, or a note added about a baptism.	6
