| BRESS[B ][ED] | *         |              | *         | STANTON       |            | Jul 1604      | Year is lost - follows a marriage in 1604, so could be the same year. Bride's surname could be Brasted, but the other letters don't look like they come from that name. Some pages from the oldest Wattisham register were used to bind the register covering 1680-1736. The rest of the old register is lost. As they've been treated as covers, the entries have mostly worn away and much of the information is lost. | 32  |
